Dear Sir / Madam

As I learned about this opportunity through the placement center and was delight to find that all my skills are accomplished meet all of the necessary requirement, which I was drawn to this exciting opportunity. I would like to apply for this post as I am a software developer more than 5 years of experience.

I believe that my qualification and extensive work experience in installing, maintaining and troubleshooting software system makes me an ideal candidate for your vacancy. About skills as a familiar language are C, Java, JavaScript, Python. I also have good Knowledge of relational database and of developing web services. I have excellent problem-solving skills and the skills needed to help train others on the programs used to enhance productivity.

Your listed requirements closely match my background and skills. A few I would like to highlight that are:

- Graduated in B.E IT from Mumbai university with 8.87 CGPA.
- 5 years of experience in software development and 2 years of experience as product manager.

- Knowledge of technologies like SOLR/Elastic search.
- Highly skilled in designing, testing and developing software.
- In depth knowledge of Core Java, Multi-threading, Spring, Spring-Boot.
- Certification in JavaScript and Object-Oriented technologies.

Please find enclose with this letter with my CV for your consideration. In closing I thank you for your time and I look forward to hearing from you.

Sincerely,

Pranav Kadam
